

The Programs

All programs are approved by the Arizona Board for Nursing Care Institution Administrators and Assisted Living Facility Managers (NCIA Board).

The **Assisted Living Caregiver** program curriculum covers resident rights, communication skills, stress control, medication administration, infection control, nutrition, service plans, health, aging and more. The program is 104 hours including eLearning, classroom and skill-lab training.

The **CNA Bridge Program** is for licensed Arizona CNAs. The NCIA Board allows for a waiver of classroom hours, so your classroom requirement is shortened but you cover all the curriculum through 26 hours of eLearning and only 20 hours of class. You must still pass the Arizona State Written Exam to become a caregiver.

The **Assisted Living Manager** program provides students with the theory and skills required to practice as a Facility Manager for Assisted Living Homes or Centers. Curriculum covers financial, operational, personnel, and regulatory compliance. Graduates of the program will be expected to take the Assisted Living Facility Manager Board exam to obtain certification .

The Instructors

Michael Snyder, BSME

Michael is a consultant, manager and educator as well as the Director of AMTI's Assisted Living Programs. He has been teaching at the school for over 5 years.

Linn Cunningham, LPN

Linn has over 35 years as a director of some of Arizona's largest AL Facilities. She is an outstanding educator who has taught at AMTI for almost 10 years.

Jennifer Hassan, RN

Jennifer owns an Assisted Living Facility & two care homes. As a Registered Nurse & AL manager she has brought real life into the AMTI classroom for close to 8 years.

Affordable Tuition

Tuition includes all textbooks, lab materials, stethoscope, blood pressure cuff and gait belt.

Day, & Weekend Class Schedules

Obtain certification as an Assisted Living Caregiver by taking and passing the Arizona State Written Final Exam.

Facility Consulting

Professional management advice for launch of new projects and stabilization of existing homes. We identify practical steps for starting and running a new care home.

Care Home Start Up Package

To help you achieve a smoother start up, the complete administrative package is everything a new care home will need to be in compliance with the Arizona Department of Health Services

We also offer:

Onsite Training

We offer onsite programs and customized training topics that can be tailored to solve performance challenges and to support organizational development.

Continuing Education Units

CEUs are a prerequisite of ALFM certification renewal and a DHS code compliance requirement. AMTI provides both in-class and online programs to help you meet both the NCIA Board and DHS requirements.
